

Arthur R. Easley, MD, cardiologist and electrophysiologist

Heart Expertise.

Innovative Treatment for Irregular Heartbeats

Many hospitals in the region offer heart care. One hospital has the expertise and innovation to offer hope to the seriously ill when others cannot.

Only The Nebraska Medical Center has these distinctions:

- Renowned specialists in electrophysiology who have pioneered sophisticated 3-D mapping technology to diagnose, locate and effectively treat electrical problems of the heart.
- Offering cryoablation, a newer, safer therapy to treat and disable arrhythmias.
- The first and only nationally certified program in heart attack in Nebraska.
- Recognition by J.D. Power and Associates for "Providing an Outstanding Cardiovascular Experience."
- Renowned specialists in specific kinds of heart disease.

When it's your family, there is only one.
