

# LINK UP

for easy access to  
*your* patient's progress

ONE CHART | LINK

## One Chart | LINK

### One Chart | LINK offers referring physicians:

- See physician notes and summaries, labs, results, medications and more in real time
- Access patient records of which you have an established relationship
- Comprehensive overview of patient inpatient stay and outpatient consults
- User friendly navigation
- Print documents to PDF to import directly into your system

### You must use one of the following Internet browsers to access One Chart Link:

- PC users must have Internet Explorer 9, 10, or 11, Firefox 24 or later, or Chrome
- Mac users must have Firefox 24 or later, Chrome or Safari

One Chart Link requires a minimum screen resolution of 1024x768 pixels. A high-speed Internet connection to achieve the best system speed and performance is recommended. In addition, you need Java enabled to display graphs and scanned images in One Chart Link.
